School Report

SCHOOL BOARD

ANNIE H. BOWLES

CHARLES N. JUDD

ALFRED T. YOUNG

In presenting this report I feel that I can give only a small idea of the work which has really been accomplished during the past year. Much of it has been of the kind which does not show on the outside but is just as necessary. We have tried to raise the standard of morality as well as scholarship. A great effort has been made to secure a more regular attendance on the part of the pupils. This is a great help to the teacher and an absolute necessity to the pupil if his work is going to amount to anything. We have also tried to have better care taken of the books and school property in general. I think these two efforts have met with a fair degree of success. We have arranged a more systematic course of study and some new books have been introduced. There are still many things which need improving and we hope to attain some of these in the future.

There should be money enough for a winter term of school and the buildings are badly in need of repair. Cannot something be done for these two things?

The school opened at Wildwood was most successful. The teacher was efficient and the pupils made rapid progress. Both the other schools had good teachers and did good work.

A cordial invitation is extended to all to visit the schools at any time.

Respectfully,

ANNIE H. BOWLES.
